orbitals	124	d minor

nothing here starts when you press it. it starts on the one.

the right pages are the documents the deck runs, pieces/, set in its own 6x12 face; the left pages read them out in its 12x24. two inks, one bit each. the samples go on their pads: pieces/ABLETON.md. copy it, fold it, pass it on.

.....

score

six tracks, as the deck
holds them, and read out.

.....

open set

a score is a document.

walk down it:
f10, the next heading.
ctrl+enter runs it.

everything lands on the one: a part, a change, a mute. run it any time in the bar before.

f1-f8: a part out, a part back. a heading again: its lanes out. again: back.

. .....

```
